# Double rocker for switches aluminium Simon 82

REF. **82026-33**

BASIC INFORMATION

DESCRIPTION

Double rocker for control mechanisms in aluminium colour included in the Simon 82 series, the Simon 82 series is characterized by its functionality, simplicity and attention to detail. It has dimensions of 55x55 mm and is available in 6 different finishes, the manufacturer recommends choosing the frame with the same baseboard colour as the selected rocker. The product is manufactured in galvanized thermoplastic and complies with the regulation. It resists extreme temperatures (between -25 and 50º), although it is advisable to install it in an ambience whose temperature is between 5 and 40º. It is suitable for surface and flush mounting. It offers an easy and quick installation, although you can consult the technical information associated with the product in case of doubt. For optimum maintenance, clean with a soft, dry cloth and do not use abrasive cloths and / or abrasive cleaners containing chlorine that could damage the product.
