

Cross-shaped connector

REF. 89911238-039

BASIC INFORMATION

DESCRIPTION

Simon is a reference to offer the most effective solutions, if we are talking about indoor lighting. Its products and accessories designed for this purpose, have no rival thanks to the qualities present in the structures of all of them. A good example of this feature the we find in the Cross-shaped connector in black finish, which stands out for its competitive price. One of the reasons why each day this connector is the most chosen from private individuals and professionals from the sector is its easy installation, which must be carried out always on 3-phase rail. The resistance to impacts and knocks and its durability over time, even in environments with high humidity and temperature, it makes each time is more included in all types of projects in new construction or renovation projects. Impossible to offer more for less.
