

Adjustable T connector with LH inside earth

REF. 89940930-039

BASIC INFORMATION

DESCRIPTION

We have all lived in the first person the problems that occur if we have a correct lighting in the rooms and apartments of a private home, commercial premises or headquarters of company. How to avoid these problems and always have the light, ideal for each activity we do? Confiding in the items designed by Simon. For example, you can take the T with LH indoor left adjustable white in colour, an element suitable for installation in a 3-phase rail. Its qualities have made it one of the accessories for electrical installations more present in projects masonry new and refurbishment projects. One of its great advantages is its structure to prevent the oxidation that occurs in environments with high temperatures and degrees of relative humidity, as well as the deterioration that is usually occur due to the use of the same and the passage of time.
