BASIC INFORMATION

DESCRIPTION

The CLEAN modular base Simon 270 is fully compatible with standard frames and incorporates a patented magnetic auto-cover system to ensure that the cover moves automatically when the visible sockets are not in use, thus preventing the accumulation of dirt inside, facilitating cleaning, and extending its durability. With a clean and minimalist design, it features a flat surface flush with the wall for complete integration. Its compatibility with standard frames allows for the selection of functions and the purchase of multiple frames with total freedom, even placing a CLEAN at the end of the installation. With this CLEAN modular base, Simon 270 reaffirms itself as one of the most versatile ranges on the market.
