

Single rocker with viewer and light symbol white Simon 28

REF. 28016-30

BASIC INFORMATION

DESCRIPTION

Individual rocker with viewer and engraved light white in colour of the series Simon 88, available in 1 finish. It has an element and can be both surface or flush mounted in a place with a temperature of between 5 and 40°C, although it can withstand extreme temperatures of -25 to 50°C, approximately. This rocker is made of thermoset plastic, a material that is very easy to maintain, as you just need a soft, damp cloth, light line, with soapy water and forget you have to use abrasive cloths or cleaners containing chlorine. The series Simon 88 is bold and unique and features pure lines, attractive, with style and is used to be and highlight since this is a range that breaks the square shapes, thanks to its circular or square frame and the shape of its rocker attract glances, at the same time as the challenge preconceived ideas.
