

Cover for wire outlet pull mechanisms ivory Simon 75

REF. 75051-31

BASIC INFORMATION

DESCRIPTION

Cables are an indispensable element in homes and businesses. Without them it would be impossible to make a normal daily life because we would not have light, telephone, music or bell. Many times the impossibility of hiding them hides the design of the rooms. To solve this problem, we have the cover for cable outlet pull mechanisms in ivory of the Simon 75 series. The security of the systems is guaranteed 100% thanks to this piece to avoid unexpected accidents. The cover is available in the colours snow white, ivory, grey, graphite, aluminium and bronze and highlights its easy installation on the surface mounting or flush mounting in the wall in a universal box. To keep the structure clean, which has been manufactured with thermoplastic materials, a damp cloth is sufficient. Its price, resistance and durability over time make it one of the most demanding tapas in the industry.

FINISH

Ivory

MATERIAL

Thermoplastic

PACKAGING CONTENTS

Cover

SYMBOL

Without engravings

COMPATIBILITY

Simon 75 mechanisms

ETIM CLASS

EC000011

REMARKS

Available in 6 finishes. It is recommended to choose a frame with a base the same colour as the rocker.

TECHNICAL INFORMATION

AVAILABLE MARKET

CE
