

Push-button switch with light symbol 10A 250V~ and screw terminal connection system white Simon 32

REF. 32651-35

BASIC INFORMATION

DESCRIPTION

It is a push-button switch 10A 250V~ with screw terminal connection and with a light symbol, this article is white in colour and is included in the Simon 32 series. It has a rocker operation, the manufacturer advises you to use the control unit square opening insert for frames with circular opening control unit for an optimal result. It is very important to give you a proper maintenance of this piece, therefore, the ideal is to clean it with a soft and dry cloth and avoid abrasive cleaners that include chlorine among its components, as they could damage this control mechanism. Simon 32 series is one of the most simple collections of the brand, a commitment to the classic shapes and finishes, but without losing sight of the functionality of its products. These are designed to adapt to any installation mimicking in it to perfection.
