Frame with base for 3 elements horizontal white Simon 73 Loft

REF. **73630-60**

BASIC INFORMATION

DESCRIPTION

With universal dimensions of 75x217 mm, the Frame with socket for three elements, horizontal, white in colour is one of the most demanded elements of the Simon 73 Loft for both individuals and professionals of the electricity and construction projects to be used in all types of public and private buildings. Due to all the features of its design, Simon recommended to use the white finish for rockers and covers. The great strength of its structure to knocks and scratches is due to the thermoplastic components with which it has been designed to its structure, which stands out for its innovative lines that allow it to be installed both in environments cásicos and avant-garde always giving a touch of distinction. It has a capacity for 1,2 and 3 elements. His price? The best that can be found in the market today.
