

IP66 watertight raised floor box kit with 2 schuko socket outlets + 2 RJ45 connectors category 6 UTP and sheath

REF. KGH216URF/74

BASIC INFORMATION

DESCRIPTION

Simon completely revamps its range of waterproof floor boxes for indoor and outdoor environments. This is a kit that includes the manual closure frame with 2 Schuko sockets and 2 RJ45 connectors category 6 UTP, to be integrated into the included bucket for installation in a technical floor with cutting dimensions of 174 x 125 mm. The product design, combined with its stainless steel frame, ensures a robust, solid, and safe installation as it can withstand a water jet of 1 kg/cm² from any direction, achieving an IP66 protection rating with the cover closed. It also supports a maximum load of 1500 kg and an IK08 impact resistance. It maintains an optimal cable curvature radius for high-category voice and data connections. Our accessory for connection with a closed cover is available, allowing us to keep our connections active with an IP54 (see reference KFA1001), the ability to level our box in case of an irregular flooring (see reference KFA1003), or the capacity to link more than one box (see reference KFA1002).
