

Double rocker for switches aluminium Simon 75

REF. 75026-33

BASIC INFORMATION

DESCRIPTION

In colour, matt aluminium double rocker for control mechanisms of the Simon 75 series. It is recommended that the frame be of the same colour as the rocker selected. In addition to the matt aluminium colour, this rocker is available in 5 further finishes which are detailed below: Ivory, grey, bronze, graphite and white. Combining the electrical components with the decoration of the spaces, achieving a discreet and stylish finish, has never been easier. It does not include any type of engraving on its surface and is made of thermoset plastic material. For proper cleaning, it is recommended to use a soft cloth previously moistened in water and soap. In terms of installation, it is compatible with both the system flush-mounted as with the installation process for surface-mounted. With Simon 75 habitability improves. Multiple combinations to form the ideal set that best adapts to the needs of each space.
