

Rocker half element with viewer for mechanisms white Simon 82 Centralisations

REF. 82011-60

BASIC INFORMATION

DESCRIPTION

Rocker with viewer in individual version and half an element for control mechanisms Simon. It is available in the series of rockers and covers Simon 82 Centralisations and has a beautiful and simple finish is white in colour. The rockers white are the most recommended for all types of rooms. The rocker with viewer is available in a total of five different finishes, so it is advisable to choose the frame in the same colour as the selected white rocker. As far as the installation of the product, it is possible to do it in surface-mounted or flush-mounted into the wall. The product does not include any engraving or drawn in its design and other that has a signaling function, maintenance is very simple, as it will only need to clean it with a cloth slightly dampened with soap and water, without or aggressive cleaning products containing chemical. With these simple steps the rocker Simon will last much time in perfect condition.
