Thermostable frame for 2 elements white Simon 31

REF. **31621-30**

BASIC INFORMATION

DESCRIPTION

It is a frame made of thermoset plastic for 2 elements, finished in white, this article corresponds to the Simon 31 series, a collection whose mechanisms stand out for their simple lines and friendly. It is a series of finishes sober and white and ivory and other metallized in champagne and aluminium. In this case, the frame has dimensions of 157x87 mm and is suitable for installation both vertically and horizontally. It is characterized by a high resistance to extreme temperatures, although it is advisable to install it in environments with temperatures between 18 to 40ºC. Also, the frame has been manufactured in compliance with the regulation. For an optimal effect, it is recommended to use the white finish for rockers and covers at the time of them with the frame: As for the maintenance of this article, simply use a soft cloth slightly moistened in soapy water.
