# Single rocker for blinds mechanism with 3 positions (up, down and stop) cold aluminium Simon 82 Detail

REF. **82033-93**

## BASIC INFORMATION

### DESCRIPTION

This is an individual rocker for a roller shutter mechanism with three positions: Raise, lower and stop. Finished in cold aluminium colour and available in the Simon 82 Detail range, you can find the element in the category ""rockers and covers"", you will have six finishes to choose one of them, combine the one that best suits you for your home making it combine perfectly with any element. The installation is simple because you can either surface mount it or flush mount it, the piece includes symbols for raising, lowering and stopping blinds. A key element to automate the shutters of your home, with three positions to make it easier, is why the Simon 82 Detail series makes it very comfortable to install the piece and make it work in the best way possible, being able to control the shutter in the most comfortable way possible and at your whim with the three regulations in the control system.
