Angled voice and data plate without dust cover 1 element for 1 RJ45 graphite Simon 500 Cima

REF. **50000181-038**

BASIC INFORMATION

DESCRIPTION

The Simon 500 Cima Range, it offers the best and quickest solution to the most demanding market requirements. Simon, with extensive experience in the most modern technologies, prepares for the future any solution required by your company or office, facilitating the installation with extendible modular and safe systems. With the aim of respecting as much as possible to the most rigorous standards of certification, Simon recommends installing angled plates or depth extenders, which guarantees that the cabling has the correct radius of curvature. As Simon is fully compatible with the majority of the brands of the highest quality on the market, we suggest you consult the selection tables in the catalogue or on its website for the most up-to-date version about this compatibility. This is an angled voice and data plate without dust cover and 1 element for 1 RJ45. Graphite finish, Simon 500 Cima range. Suitable for combined MD module. Single Angled Plate. Plate for 1 and 2 RJ45. The plate includes clips for fastening in vertical and horizontal housings without the need for an adaptor. Dimensions 50 x 50 x 21 mm Halogen-free thermoplastic that guarantees no flame propagation in case of fire and low toxicity in case of smoke resistant to corrosion and temperature changes. (-5 to 60 °C). Clean with a soft, dry cloth, do not use abrasive cleaners containing chlorine.

FINISH

Graphite

PACKAGING CONTENTS

Angled voice and data plate without dust cover
