Interchangeable case for 2 elements frame arctic green Simon 27 Play

REF. **2700627-084**

BASIC INFORMATION

DESCRIPTION

Arctic green finish, in the range Arctic of the interchangeable case for frames Simon 27 Play, it is designed to give you the opportunity to those who want to a change daring in its mechanisms, without having to make installation new. In its version for two elements, with four modules, although you can have a capacity for up to four elements, its dimensions are 86x164mm. Due to its finish, it is recommended to combine this interchangeable, with frames that incorporate rockers and covers in graphite. The manufacturing material, this model of cover is thermoplastic, with a painted finish. It is ready to be installed both in surface-mounted and in any frame that is flush-mounted in a universal box, offering a very important versatility at the time of its assembly. It can be, in addition to vertically or horizontally, depending on the installation by of these mechanisms and of the space. For maintenance and cleaning, simply use a soft, dry cloth, without the need to use abrasive cleaners that may damage.
