

Frame for 1 element textured green interior graphite Simon 82

REF. 82814-65

BASIC INFORMATION

DESCRIPTION

The Simon 82 series comes this frame for 1 element in green and with the indoor in graphite. This series presents a great variety in terms of colors and an example we have in this frame. When completing your purchase of this piece and if you are thinking about choosing a rocker or cover for a certain installation, we recommend to use for this frame the finished in graphite to match the indoor of the frame, manufactured in materials that ensure a high resistance to all kinds of adverse conditions and many years in perfect condition: The baseboard is thermoplastic and the frame is manufactured in the best zamak. When cleaning, avoid abrasive cleaning liquids that may contain chlorine: Clean dry with a soft cloth. Another frame ideal for any installation, housing, commercial premises, schools, hospitals or sports centres. Simon is an insurance for all your electrical installations.
