Frame for 2 elements green Simon 75

REF. **75620-65**

BASIC INFORMATION

DESCRIPTION

Functionality and a wide variety of colours, this is what the Simon 75 series offers us. Thanks to this series decorate a space such staff is very simple, just have to choose between 6 finishes of the rockers, 15 colors of the rockers pieces and the 13 finishes of the frames. Moreover, the rectangular design of the frame allows us to play with the shapes, since it can be installed vertically or horizontally. With measures of 85x159 millimetres, we are faced with a frame for 2 elements, it is manufactured in thermoplastic and has a finish in green colour. Why in thermoplastic? The response is simple, because it is a material very resistant to the knocks, dust, the temperature changes and allows finishes excellent. It is a frame suitable for surface and flush mounting it, we can find for 1, 2, 3 and 4 elements, the Simon 75 series is compatible with the Simon 77 mechanisms.

FINISH

Green

MATERIAL

Thermostable
