

Double rocker for blinds mechanism without security latching graphite Simon 75

REF. 75029-38

BASIC INFORMATION

DESCRIPTION

Double rocker of the Simon 75 series, finished in grey colour and that is used for roller shutter mechanism, which does not have latching of security. This rocker with 1 element and is perfect for an installation both in surface-mounted and recessed, in rooms with a temperature of between 5 and 40°C, although it is also capable of withstanding extreme temperatures (-25 to 50°C). Made of thermoset plastic, its design follows the regulation UNE-EN 60669-1: 2002 + A1: 2003 + A2: 2009 standards and to clean it, just use a soft cloth slightly moistened in soapy water and never use abrasive cleaners or cloths with chlorine. Simon 75 is a range of products comprised for rockers, parts pieces, frames and mechanisms that offer infinite combinations of colour as well as an excellent game of shapes. In addition, this series is compatible with the Simon 77 mechanisms, a range that allows you to connect the cables without stripping or braiding them and also without the need to use additional tools to place them, so that it reduces the time in the installation.

FINISH

Graphite
