Wire outlet mechanism with clamping flange white Simon 27 Play

REF. **27801-35**

BASIC INFORMATION

DESCRIPTION

The mechanism of cable outlet of the Simon 27 Play series is a product essential for the organization of any electrical panel. The product has dimensions of 45 x 45 millimetres and includes the fixing cable tie for its installation, it comes in white a classic colour that makes it is compatible with virtually anywhere in the home or department where it is installed. This mechanism of cable outlet offers more possibilities of installation because it is suitable both for surface-mounted and recessed installation, its components of high quality stretch the life of the product, and, above all, its resistance and security, because they are equipped with halogen-free insulation material. Another of the elements to highlight the product is that has included a trim made of thermoplastic, this means it is capable of withstanding high temperatures and in case of fire propagating extinguish, because they do not contributes to its spread. This material is also reduces the toxicity of smoke.
