

Cover with safety device for German socket outlet aluminium Simon 75

REF. 75041-63

BASIC INFORMATION

DESCRIPTION

In the format for Schuko lateral ground connection, the cover with safety device for the socket-outlet in aluminium of the series 75 is the best example of Simon's concern for the security every time he launches a new product on the market. It is a non-negotiable aspect in all its ranges. Available in seven finishes, which makes it possible to choose a frame with the same baseboard colour as the rocker selected, it is a cover suitable for both surface mounting or flush mounting, and is easily installed, without the need for previous professional knowledge. The safety device included makes this cover in the perfect mechanism for spaces with minors such as private homes, schools or children's hospitals. Made with thermoplastic materials, this piece is designed to avoid deterioration even if it suffers high temperatures, being a damp cloth enough to clean it and maintain its structure as the first day.

FINISH

Matt aluminium

MATERIAL

Thermoplastic,Aluminium
