Frame for 1 element cold aluminium white base Simon 82 Detail Original

REF. **8200610-093**

BASIC INFORMATION

DESCRIPTION

Frame of the Simon 82 Detail series. It is the frame for a single element with a cold aluminium finish and the socket white in colour, it is part of the Original range of the Simon 82 Detail series: To achieve a the result with a spectacular design, it is recommended to use the rockers and covers in cold aluminium finish, in this way it is possible to create environments ideal and very modern. The frames Simon support very high and low temperatures, specifically from -25 to the + 50 degrees centigrade. And, a feature to be taken into account is that it can be both surface or flush mounted, this frame has dimensions of 93 x 93 millimetres. It is made of thermoplastic, a material that gives a halogen-free perfect, generating a great security during their use. The frame also has components. For its maintenance, it is recommended to avoid abrasive cleaning products and to choose a soft dry cloth and clean. This frame has capacity for one, two, three or four elements.
