

Adjustable L connector with outside earth

REF. 89940730-039

BASIC INFORMATION

DESCRIPTION

Buildings dedicated to the location of offices, installations designed for the practice of the city, spaces designed for the production of activities leisure or as complex residential, vacaciones and hoteleros are some of the public and private buildings that already enjoy all the advantages of having its electrical systems through the L connector with LH outdoor adjustable white in colour. This is a project whose competitive price is unrivalled in the market. This is one of the reasons why it is one of the products most included in projects masonry new and refurbishment projects in homes personal, headquarters of companies and local comerciales. In terms of installation, it must be carried out on a 3-phase rail, being the same easy and simple to carry out. Once again, Simon provides the most effective solutions for electrical installations.
