

Cover for wire outlet pull mechanisms aluminium Simon 82

REF. 82051-33

BASIC INFORMATION

DESCRIPTION

Cover for cable outlet or handle mechanisms in matt aluminium finish of colour of the Simon 82 series, available in different colours such as snow white, ivory, graphite aluminium, ivory champagne or graphite. You can find the element in the category of "rockers and covers", the model is compatible to mount on the mechanisms for cable outlet. The Simon 82 series is characteristic because it is one of the most personalization combinations offered, so you have available six different finishes, of which it is recommended to choose the same colour of the frame with respect to the baseboard of the selected rocker. Its dimensions are 55x55 mm which must be taken into account to install it. Its installation is very simple, you simply have to choose between two shapes, since the element is suitable for surface mounting or flush mounting. The element is made of metal components with thermoplastic insulation.
