Electrical linker for socket outlets Simon 27 Centralisations

REF. **27996-39**

BASIC INFORMATION

DESCRIPTION

With the best value for money that exists on the market today, the Simon 27 Centralizations series presents the electrical linker for socket outlets. A piece that combines security and innovation in its design, made with materials of the maximum reliability and resistance. Your system has a current of 16 A, a voltage of 250V ~, which allows it to withstand temperatures in a wide range of maximum and minimum temperatures without any negative consequences for the same. This piece is suitable for surface and flush mounting. Another of its most outstanding features is that it can be compatible with all the mechanisms included in the Simon 27 Play series, with an insertion operation, it also stands out for its easy cleaning to prevent the structure from oxidizing over time, so we are one of the most demanded parts of the Simon 27 Centralizations series.

FINISH

Translucent brown

PACKAGING CONTENTS

Electrical linker

COMPATIBILITY

Simon 27 Play mechanisms

ETIM CLASS

EC002649
