

3-phase adjustable rail 3 m

REF. 89921330-039

BASIC INFORMATION

DESCRIPTION

Designed in white colour, the Rail 3-phase adjustable, which has a length of three metres, is one of the products most sought-after for indoor lighting. This element is a benchmark for individuals and professionals from the sector to have the conditions of the desired indoor lighting for each situation in spaces with all kinds of designs architectural. University campuses and residential centres, for the development of activities sports and leisure or hotels and holiday resorts are some of the spaces that already illuminate crossing their installations with the help of this 3-phase adjustable rail that stands out for its great price/quality relationship, its resistance to knocks, impacts and its durability over time, once again, Simon is the best ally to complete the electrical systems in private homes, companies and commercial premises.
