

3-phase flush mount rail 2 m

REF. 89930230-039

BASIC INFORMATION

DESCRIPTION

Simon is a reference in the world of products and accessories with which to build the systems for indoor lighting in a short, most effective and efficient on the market today. A good example with which it meets this axiom is the Rail 3-phase of 2 metres long. It has been designed in white finish, based on some guidelines to combine the most innovative design, maximum security and the most intuitive functionality. This is one of the reasons for this 3-phase rail suitable for flush mounting is increasingly more included in projects masonry new or renovation projects of commercial premises, headquarters of companies and private homes. To achieve the conditions of indoor lighting ideal at all times and in all types of situation with the best value for money it is possible thanks to this product.
