

Interchangeable case for 4 half elements (2 elements)
American frame pistachio Simon 27 Play

REF. 2700654-065

BASIC INFORMATION

DESCRIPTION

Simon always has always stood out for its experience and long history of marketing and selling all kinds of accessories and mechanisms for the installation of electrical systems in homes, companies and commercial establishments. Simplicity and elegance are two adjectives that perfectly define the elements for electrical systems included in the Simon 27 series. In this range we have the interchangeable cover for American frame with 4 half elements (2 elements), in a pistachio finish. This piece is made with the best materials, with thermoplastic components, and it is recommended to combine it with white rockers and covers. Its installation, which can be carried out in minutes without the need for tools, as the sleeve is suitable for flush mounting in a universal box. The frame measures 86x148 mm, allowing it to be assembled in two different orientations, depending on whether the plate is placed horizontally or vertically.
