BASIC INFORMATION

DESCRIPTION

The Simon 100 series was born with the aim of simplifying things. Its main feature is functionality, because all these products are designed to give a bonus of user-friendliness to this type of mechanisms. More interaction and faster. But also aesthetically has a lot to say, especially thanks to the design of these frames. This frame, minimum 2 elements in Simon 100 white, is the ideal socket to support the other parts of the mechanism. Here is a life and elegance in finish with white quartz effect and the best materials that guarantee great durability. Regarding its installation, you must take into account that it should be built-in and that the direction of its installation can be vertical or horizontal. Use a soft cloth dampened with soapy water to clean, avoiding abrasive chlorine cleaners.
