Angled voice and data plate with dust cover for 1 RJ45 connector white Simon 82

REF. **82578-30**

BASIC INFORMATION

DESCRIPTION

The Plate for voice and data tilted plate with dust cover for an RJ45 connector in white of the Simon 82 series perfectly combines simple functionality, innovative design and maximum security. Its installation, which can be carried out in a comfortable and simple way in a few minutes, can be carried out in a universal recessed box or, in its absence, a baseboard surface-mounted. This is a universal adaptor with dimensions of 55x55 mm available in three different finishes, so we always recommend choosing a frame with the same baseboard colour as the selected plate, to clean it without affecting the thermoplastic materials with which it has been manufactured, a soft, damp cloth is sufficient. With this simple maintenance we will keep its structure free of oxidation due to the humidity and temperature of the ambience. All with a relationship between quality and price that is unmatched.

FINISH
White

MATERIAL
Plastic

PACKAGING CONTENTS
Plate

SYMBOL
Without engravings

COMPATIBILITY
Simon 75 mechanisms

ETIM CLASS
EC000018

REMARKS
