

Single key with bell symbol for push button switch matt white Simon 100

REF. 10000017-230

BASIC INFORMATION

DESCRIPTION

Individual key with bell engraving for push button switch, in a discreet white finish with quartz effect. It is part of the Simon 100 series and the individual version of only half of an element and its installation is carried out by flush mounting. This rocker arm is made from PMMA base, with thermoplastic base, which gives great safety to the product. In addition, thanks to its components, it can withstand widely varying temperatures, ranging from -25 degrees to + 75 degrees centigrade in total. These Simon 100 keys withstand 95% humidity without dew. For correct maintenance, simply clean the product with a soft cotton, very cloth, soaked in water and soap, neutral. It is always advisable to avoid the use of aggressive cleaning products which contain chemicals (such as chlorine) and which could damage the button. If we follow these recommendations, the lifespan and functionality of the product will be extreme.

FINISH

Matt white

COMPATIBILITY

Mechanisms Simon 100
