Double rocker for blinds mechanism without security latching ivory Simon 82

REF. **82029-31**

BASIC INFORMATION

DESCRIPTION

This product is part of the Simon 82 series is a double Rocker specially designed for the mechanism of blinds without latching of security. It measures 55 x 55 millimetres. It stands out for its simple installation, which allows two possibilities, done directly in surface-mounted or recessed. The product is presented in a beautiful ivory finish, a colour that will give elegance to the room in which it is located. It is necessary to point out that this product is available in a total of six possible colours, so that the user can choose the one you like best or suits his needs. For this reason, it is advisable to choose a frame of the same colour as the rocker selected, to maintain a degree of harmony appearance of the final set. The materials used by Simon to manufacture its products are of high quality. In this occasion, the rocker is made of thermoplastic, which makes it capable of withstanding high or low temperatures ranging from -25 to 50 degrees centigrade, without losing functionality at any time. This also extends the service life of the product and increased its security.
