Voice and data flat plate with dust cover for 1 element for 1 Infra+® RJ45 connector black Simon K45

REF. **KA75/14**

BASIC INFORMATION

DESCRIPTION

Voice and data flat plate with dust cover for an element and with an RJ45 connector Infra +, in black colour grey finish, belonging to the series Simon K45. This is the individual version of the plate, with four modules. To be fully plate, it is perfect for environments with little space. It is available for one or two RJ45 connectors, which is clipan directly, without screws. These voice and data plates, we can use in vertical enclosures. To do this, it is necessary to take the 90 ° positioner (ref. K66). The dimensions of the plate are 45x45 mm, with a depth of 8.5 mm The material used to manufacture it guarantees the total security, as it is a product insulating thermoplastically, which prevents the flame spread if it had a fire. Accepted high temperatures, to + 60 degrees centigrade and the installation is variable, since it can be used in surface-mounted or recessed. The maintenance of the voice and data plate Simon is simple. For cleaning only, it is necessary to use a soft dry cloth.
