

Single rocker for switches with pilot light white Simon 28

REF. 28012-30

BASIC INFORMATION

DESCRIPTION

The products and accessories included in the wide catalogue of the Simon 28 series have been designed with the aim of providing the most appropriate a response to market demands, offering numerous functions that provide comfort and security to the different. This purpose it complies with a large extent the Rocker individual for control mechanisms with pilot light white in colour included in this range. It is a very resistant rocker for the materials made of thermoset composites with which it has been manufactured, so it is not affected by high or low temperatures, suitable for surface-mounted and recess, it stands out for its easy installation, which can be carried out in minutes without the need for previous professional knowledge. Another of its advantages is that this piece includes light engraving with the most innovative design and maximum security.

FINISH
