

Plate for electronic rotary voltage regulator up to 500W/VA with light graphite Simon 75

REF. 75050-38

BASIC INFORMATION

DESCRIPTION

This plate is designed for electronic rotary voltage regulator up to 500W / VA. It is part of the Simon 75 series products and comes with indicator light. The plate is presented in a beautiful graphite colour, that endow elegance to the final set. However, it should be noted that this plate is available in a total of six different finishes so that the user can choose the one that best suits your needs to the aesthetic tastes or the place where plaziert werden soll. It is advisable to choose a frame compatible with the same baseboard colour as the rocker selected to achieve a full harmony appearance. The materials used to manufacture the Simon products are of high quality. In this case, it is made of thermoplastic, a material that gives resistance to the products and gives hardness of an extra that protects of high or low temperatures, as well as possible external harmful actions.
