

Pack of 4 screws for securing mechanism-holder unit IP66 brass Simon K45

REF. RKS005/71

BASIC INFORMATION

DESCRIPTION

It is a pack of screws designed for the fastening of one mechanism-holder unit IP66. Are manufactured in stainless steel with brass finish and belonging to the series Simon K45. The screws has dimensions of 15 mm and are in compliance with current regulations. This product is supplied as a replacement for the set of 4 screws on brass finish that accompanies the mechanism-holder unit. However, remember that the article does not include the mechanism-holder unit. Simon K45 includes a wide range of products, designed to facilitate connectivity in the work stations. Columns, mini columns, mechanism-holder units or mini-towers are some of these articles that offer all kinds of connections, both electrical, voice, data and multimedia, in a single point. As for the maintenance of the screws, it is recommended to them with a soft and dry cloth, avoiding abrasive cleaners containing chlorine.

FINISH

Brass

PACKAGING CONTENTS

Pack of 4 screws for securing brass IP66 mechanism-holder unit

ETIM CLASS

EC002420

MATERIAL

Metal

REMARKS

Replacement for screws to order as substitution for existing ones (does not include mechanism-holder unit)
