Double rocker for blinds mechanism with security latching graphite Simon 82

REF. **82028-38**

BASIC INFORMATION

DESCRIPTION

It is equipped with the installation of the double rocker for blind mechanism with latching of security with a graphite finish, the manufacturing material used for this element has a maximum quality because it is made of thermoplastic, which has an average temperature range between 5 and 40ºC and the maximum temperature ranges between -25 and 50ºC. The security that has with the elements of the Simon 82 series is reliable since it complies with the following regulation UNE-EN 60669-1: 2002 + A1: 2003 + A2: 2009. The Simon 82 series is compatible with the Simon 77 series so you can combine different designs and get your own style with elegance, balance and simplicity. We can also highlight the avant-garde finishes organized in four families which are noble metal, wood, metal, colour and colour. You can install the double rocker easily, taking into account its dimensions of 55x55 mm and is ideal for surface-mounted and to be recessed where you want.
