Aluminum trunking of 2m 130x55mm with 2 compartments for K45 functions

REF. **TK11102/8**

BASIC INFORMATION

DESCRIPTION

Aluminum channel with a length of 2m and a section of 130x55mm, featuring 2 front compartments capable of accommodating all functions of the K45 range without the need for accessories, achieving significant time savings in assembly. Regardless of the designed structure, it ensures the insulation of electrical wiring from voice, data, and multimedia, as well as maintaining its correct bending radius throughout the distribution. It adapts to various architectures through its installation accessories, with the possibility of branching into Mini-Channel and Cable Guides through the pre-punched line. Made of high-quality anodized aluminum, it provides a protection degree of IP4X and IK07. We are talking about a fireproof, self-extinguishing, and non-flame propagating material. The indicated price is per meter and is supplied in batches of 6 units (12 meters in total)
