

Continuity connector (unpowered)

REF. 89910438-039

BASIC INFORMATION

DESCRIPTION

If we want to ensure that nothing fails to avoid any type of accident in the electrical installations in homes personal, commercial premises or the headquarters of companies, we must ensure having a good connection between all the elements present in these systems only. We can thus guaranteed 100% that everything works properly. To achieve this goal, we have the best ally in the Simon brand. In its wide catalogue of products and accessories, you can take the of continuity without power. This is an element of high quality that has been designed in black colour. As for its installation, which can be carried out in a simple way in a matter of minutes, you must be finish on a 3-phase rail, another of its great advantages is the excellent value for money, which has turned it this article in one of the most demanded of Simon between our customers.
