

**Interchangeable case for 4 half elements (2 elements)
American frame orange Simon 27 Play**

REF. 2700654-072

BASIC INFORMATION

DESCRIPTION

Looking for an interchangeable sleeve that combines the most innovative design with maximum safety? If so, these qualities can be found in the interchangeable cover for American frame, 4 half elements (2 elements) in orange colour included in the Simon 27 Play range. Measuring 86x148 mm, this piece can be assembled in two different orientations, depending on whether the plate is placed horizontally or vertically. But there are even more advantages. The thermoplastic materials with which the sleeve has been manufactured make it highly resistant to knocks or scratches, and it can be cleaned using only a damp cloth, and which will prevent it from rusting over time. For these reasons, it is one of the most demanded products for installation in large public and private buildings such as hospitals, educational centres, hotels and restaurants, offices of official bodies or large office blocks.

FINISH

Orange

COMPATIBILITY

Simon 27 Play mechanisms

ETIM CLASS

EC000007

MATERIAL

Plastic

PACKAGING CONTENTS

Interchangeable case for 4 half elements.

REMARKS

We recommend combining with white rockers and covers.
