Intermediate piece for 1 element blue Simon 75

REF. **75904-39**

BASIC INFORMATION

DESCRIPTION

The Simon 75 series offers a wide variety of colours and designs for frames, rockers, covers and exclusive elements for the electrical decoration of your home. On this occasion they propose a blue intermediate piece of colour. This intermediate piece of the frame is compatible for universal mechanisms, it is a perfect trim that can be attached to the square cavity of the frames of an element, be rockers and covers. These elements can be mounted either vertically or horizontally according to the needs of the home. In addition, this series has an infinite number of colors and designs so that they can be combined with the covers and rockers you want to form the ideal set that adapts to the different needs of any decorative space in your home. For the maintenance of this intermediate piece it will only be necessary to use a soft cloth moistened with a little water and soap, so that it remains as new.
