Flat voice and data plate with dust cover for 1 element with 2 RJ45 category 6A FTP graphite Simon 500 Cima

REF. **50001089-038**

BASIC INFORMATION

DESCRIPTION

For an element with two RJ45 connectors, we have this plate of voice and data of the Simon 500 Cima series grey finish with a graphite. The plate is part of the category 6A FTP. This is the individual version with a module includes a dust shutter. The manufacturing material consists of metal components with self-extinguishing thermoplastic insulation and halogen free without elements. In this way it is possible to guarantee the security in its use, even at high temperatures. The clips to be able to receive this plate of voice and data Simon 500 Cima are included in the kit. So, you can incorporate it in both vertical and horizontal enclosures without having to use any type of specific adapter. With measures of 50 x 50 mm and a depth of 44 mm, it is one of the most functional solutions to ensure the best workplace solutions for voice and data. The wire for this plate is a cabling 22-24 AWG. The optimum maintenance of the Simon 500 Cima only requires the use of cloths dry for cleaning.
