

Diffuser cover red for signal light Simon 28

REF. 28065-32

BASIC INFORMATION

DESCRIPTION

With the red diffusive cover for indicator light of the collection, Simon 28, you will obtain a few finishes of curved lines and elegant next to the maximum functionality and innovation feature of Simon. With signalling function for beacon and position the mechanism in situations of low or zero lighting, includes engraving with a discreet light that stands out about the finishes in intense red colour of the cover. Made of thermoset materials, it guarantees a greater protection in case of fire, and can reach maximum temperatures of between -25 and 50 ° C. To the versatility of being able to install it by recessed or surface-mounted, it is in its 3 finishes available for your electrical mechanism that adapts to the needs of each room aesthetics.
