

Plate for inductive R/TV sockets graphite Simon 88

REF. 88053-38

BASIC INFORMATION

DESCRIPTION

Within the avant-garde Simon 88 series we find this plate for inductive R-TV jacks, with an excellent graphite finish, perfect to highlight regarding tones improve clarity. This piece is also available in white and in brown to be able to choose the option that best suits each space. Plate is an individual version for one element with dimensions of 68,3 millimetres diameter. The chosen for its manufacturing material is thermostable, as it has a high resistance to the knocks, scratches and temperature changes. It is a product of great durability, with a very competitive price. The series Simon 88 breaks the square shapes, giving it a great personality and a design that will not go unnoticed, a series daring and modern with curved shapes that also stands out for its finishes in pure precious. This series is compatible with the Simon 77 mechanisms.
