

Push button 10 A 250V~ with quick terminal connection system Simon 75

REF. 75150-39

BASIC INFORMATION

DESCRIPTION

The Simon 75 series presents the 10 A 250V~ Push Button with quick terminal connection system and tilting operation. This element has the possibility to implement signaling function through signaling support and key with viewer. It is suitable for surface and flush mounting, allowing easy installation in just a few minutes. Resistance and durability are two adjectives that define this push button made with metallic components with halogen-free thermoplastic insulation, which prevents deterioration under high and low temperatures. Additionally, it is suitable for a cable section of 1.5 to 2.5 mm² and 11 mm of cable stripping. All these qualities do not affect its price, as we are looking at one of the most economical push buttons available on the market today.

MATERIAL

Plastic, Metal

COMPATIBILITY

Marcos Simon 75, Simon 82 Detail, Simon 82 Nature, Simon 82 Concept and Simon 82
