

Cross-shaped connector

REF. 89911230-039

BASIC INFORMATION

DESCRIPTION

Cross-shaped connector of Simon for 3-phase rail. The three-phase rails of this manufacturer are the formula ideal to move, increase or decrease the light points. Are available in different finish: White, aluminium and graphite, on the other hand, this connector in the form of international is of a white colour, so that it is ideal to combine it with a rail that it be of the same finish for a better effect. This Cross-shaped connector, together with other accessories of Simon, is designed to create different compositions with the rails. Between the accessories we find connectors in the form of L, in the form of T, etc., all designed with the aim of the parts to be perfectly assembled and thus to suit the preferences of the user. The three-phase rails, using the connectors, comprise a system to bring points of lights LED to any space, creating environments very cosy.
