# Flat voice and data plate with dust cover for 2 AMP® RJ45 connectors white Simon 28

REF. **28089-30**

## BASIC INFORMATION

### DESCRIPTION

Voice and data flat plate with dust cover, white in colour, series Simon 28 and that is used for 2 RJ45 AMP ® connectors. The range Simon 28 stands out for being available in white finish colour, for this respond to projects in which you want to the discretion and integration. Also, another of things for which you want to highlight this series is because it is modern and shapes soft in the frame and breaks stylistically thanks to the detail of its rocker ergonomic divided into two parts. This plate can be installed in rooms with a temperature of between 5 and 40ºC, although it can withstand extreme temperatures of -25 to 50ºC and can be installed both on the surface-mounted or by flush mounted. Manufactured in thermostable material, maintenance is very simple, as it will only need to wipe it with a soft cloth and slightly dampened in soapy water without resorting to never use cloths or abrasive cleaners that contain chlorine in its formula.
