

Angled voice and data plate with dust cover for 1 RJ45 connector graphite Simon 75

REF. 75578-38

BASIC INFORMATION

DESCRIPTION

The Plate for voice and data tilted plate with dust cover for an RJ45 connector in graphite of the Simon 75 series is the market leader in sales. Why? This is a product that is suitable for position, place on the surface or to be recessed in the wall, this plate is available in four different finishes, so it is always recommended to choose the frame with the same colour of the selected plate for each place. The piece has a magnificent behaviour in all kinds of environments due to the thermoplastic materials with which it has been elaborated. All with a relationship between quality and price that is unmatched by the competition. For all these qualities, this rocker has a high durability in time, which makes it a very interesting option for those people who seek elegance and efficiency at the same time as the best price.
