

5-inch 10 W 32 Ohms speaker for flush-mount box or false ceiling installation black

REF. 05072-39

BASIC INFORMATION

DESCRIPTION

The products included in the Simon Sound range have brought about a genuine revolution in listening to radio, music or messages in the different rooms of a home, office or commercial premises. One of the elements that allows you to enjoy the stereo sound of these electronic systems with the greatest clarity is the 5-inch 10 W 32 Ohms speaker for flush-mount box or false ceiling installation, where the hole required for installation is 160 mm Ø or 60 mm depth. Manufactured with the best electronic components with halogen-free thermoplastic insulation, these speakers stand out for their resistance to impacts and scratches, as well as their long lifespan thanks to qualities that prevent deterioration. The speakers feature an innovative design, updated to modern times and compatible with other Simon home automation systems.
