

Telephone socket half element with 6 pins RJ12 white

Simon 82 Centralisations

REF. 82481-60

BASIC INFORMATION

DESCRIPTION

Half-item telephone socket, which includes a total of six RJ12 pins. It is part of the Simon 82 series, Centralizations and has a discreet and modern finished in white colour. It is the individual version of the product, which can be installed in 2 different ways: On the surface-mounted or embedded. to choose the form of installation depends on the needs of each user. The telephone socket Simon includes a connector and works by insertion. The clamping for the product is screwed. This telephone socket is Category 3 and in total has 2 wires. To extend the service life of this Simon product only need to perform a simple cleaning, via a very soft cloth. It is necessary to avoid the use of abrasive cleaners that contain chemical, such as chlorine, but it is recommended to use a solution of soapy water, pH, neutral, to optimise the maintenance of the telephone socket.
