

Single rocker for switches with light indicator graphite Simon 75

REF. 75011-38

BASIC INFORMATION

DESCRIPTION

In the individual rocker for control mechanisms with luminous. The finish is a stylish graphite grey colour and is part of the Simon 75 series, are six finishes in which you can take the rockers and covers of the Simon 75 series, so it is always recommended to choose the frame of the product in the same baseboard colour of the rocker that has been installed. The rocker is a single element and a signaling function. It is very versatile for installation, as it can be both surface or flush mounted. It is made of thermoset plastic, a material completely, it can withstand temperatures very varied, that arrive to be extreme temperatures (between -25 and + 50 degrees centigrade). The rocker of the Simon 75 series does not include any type of engraving on its design. For optimum maintenance, it is recommended to perform the usual cleaning the product with a soft cloth with a little soap and water.
